

State of the art

The best performance gear for your rig

- 01 **CPU** Intel Core i7-920 2.66GHz | £240 | www.techradar.com/480666
That's a whole lot of processing power in a li'l chip. **PCFormat Verdict 91**
- 02 **Graphics** HIS Radeon HD 4850 IceQ 4 | £131 | www.techradar.com/469468
956 million transistors of power: go on, count 'em! **PCFormat Verdict 91**
- 03 **Motherboard** Asus Rampage II Extreme | £335 | www.techradar.com/488910
Vastly expensive, but if you want to get the absolute most out of your brand new Core i7 chip then this is the board for you. **PCFormat Verdict 85**
- 04 **RAM** Corsair Dominator PC3-1200 | £329 | www.techradar.com/486276
This 6GB triple channel DDR3 kit may be more expensive than the low end Core i7 itself, but it packs a performance punch. **PCFormat Verdict 90**
- 05 **Chassis** Cosmos S | £152 | www.techradar.com/264673
A mammoth aluminium case, with top-mounted 120mm fan and space for two more. A highly desirable case. **PCFormat Verdict 90**
- 06 **Cooler** Zerotherm Zen FZ120 | £28 | www.techradar.com/429916
Whisper-quiet cooling at a rock-bottom price. Kept our quad-core processor well under control at low fan speeds. **PCFormat Verdict 90**
